INDEX & TERMINOLOGY

A close-up photograph of a man with dark, curly hair and a beard, wearing a dark-colored zip-up jacket. He is looking directly at the camera with a serious, intense expression. His hands are raised to his face, with his fingers resting near his eyes and cheeks. The background is blurred, showing what appears to be an indoor setting with large windows and warm lighting. The text is overlaid on the lower left portion of the image.

Feminine notch detail on sleeve.

A man with short, styled hair and a light beard is the central focus, wearing a vibrant blue long-sleeved button-down shirt tucked into khaki pants with a brown braided belt. He has his right hand on his hip and is looking off-camera to the left. In the background, a woman with curly hair is wearing a light blue long-sleeved button-down shirt and khaki pants, looking in the same direction. They are standing in front of a large, multi-paned window that lets in bright, natural light, creating a professional yet relaxed atmosphere.

SUITING &
NECKWEAR

DETAILS. DETAILS.

We think the inside of a suit should look as good as the outside.

NO.1

Modern polyester lining for added style. Polyester lining also makes it easier to put on and take off the suit as it doesn't cling to the shirt sleeves.

NO.2

Interior pockets for added functionality. Up to five interior pockets depending on the suiting style for extra storage for items such as cell phone, watches and other items.

NO.3

Washable styles have inner mesh at shoulder, collar and elbows for quick drying. Easy care is key for these styles and dry cleaning is no longer needed. Just inside out the coat, put it in your washer and dryer. Hang it up to dry and it is good to wear again.

A woman with blonde hair tied up, wearing a grey button-down shirt and dark pants, is smiling broadly. She is holding a small clear container of carrots in her left hand and offering a carrot to a brown horse with her right hand. The background is a blurred outdoor setting with trees and a wooden fence. A purple square is in the top right corner.

HOW TO MEASURE

Our garments are cut to accommodate active working conditions. Here's how to get the correct size and ensure a comfortable fit.

LADIES

Be sure to measure your body. Do not measure over shirts or slacks. Hold tape measure close but not tight against the body.

BUST

Measure across fullest part of bust/chest keeping arms relaxed at sides. Keep tape measure straight and parallel to the floor.

WAIST

Measure at your natural waistline at its smallest part.

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

HIGH HIP

Measure the protruding points of your hip bones, approximately 3" below your natural waist.

MEN

For men, as a general rule, the number of inches measured will equal your size, when measured correctly. Be sure to measure your body. Do not measure over shirts or slacks.

NECK

Measure around base of neck (lowest part). Number of inches equals neck size.

SLEEVE LENGTH

Start from the center of the back of neck and measure across the shoulder to the elbow and down the wrist.

CHEST

With arms at sides, measure across fullest part of the chest, under arms and across shoulder blades. Keep tape measure straight across back.

WAIST

Measure your natural waist at the height you normally wear your pants. Keep the tape measure firm but not tight.

INSEAM

Measure the inside of your leg from crotch down to the top of the shoe. Or, measure a similar style of pants that fit well. Measure from the crotch seam to the hem.

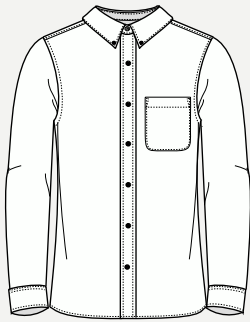

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

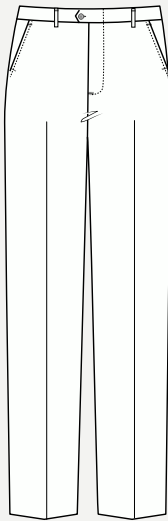

FIND YOUR FIT

Our garments are cut to three standard fits for more uniform sizing. See individual product descriptions.

SLIM

Modern silhouette with a slim cut to fit close to the body and chest, narrow sleeves, tapered through the waist

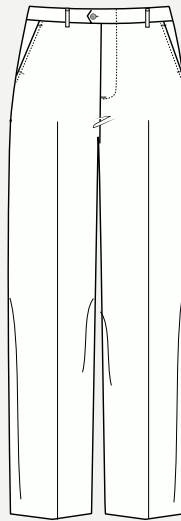

Sits below waist, closest fit to body, tapered through hip, seat and thigh, straight or tapered leg opening and flat front

TAILORED

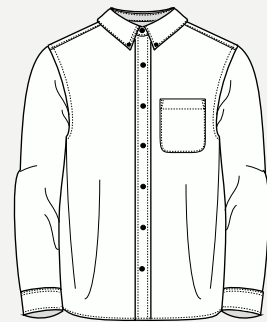

Classic silhouette with a trim cut through the body and chest, trim sleeves

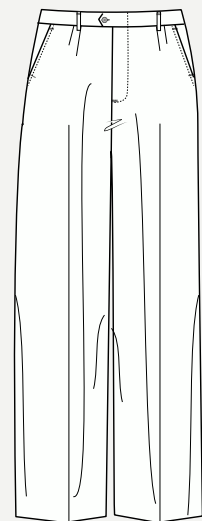

Sits slightly below waist, fitted through hip, seat and thigh, straight or tapered leg opening and flat front

TRADITIONAL

Full silhouette with a generous cut and more room in the body, chest, waist and sleeves

Sits at waist or slightly below the waist, relaxed through hip, seat and thigh, straight leg opening, pleated and flat front

TERMINOLOGY

 **Decorate** these styles with our in-house embroidery, heat seal or heat transfer services. Make the style your own by adding branding.

 **Easy Care** styles are just that – easy to care for! Put them in the wash, dry them, hang them up and wear it again. Easy care garments take the work out of looking great.

 **Home Launder/Machine Washable** is a product designed to be washed in small-batch, mild temperature conditions typical of home machine washers. The garment is designed to last 30–50 wash cycles or more.

 **Industrial Launder** is a product designed to withstand the large-batch wash/dry/press and high temperature conditions prevalent in industrial and commercial laundries. The garment is designed to last 50+ wash cycles. Bleach and other chemicals are generally not recommended. Customers should test product before using it in environments with chemicals and/or very high temperatures before deciding to use.

 **Moisture Wicking** fabric draws moisture away from your skin transferring it to the outer surface keeping you cool, dry and comfortable.

 **Natural Stretch/Comfort Stretch** fabric is engineered to provide natural stretch, flexibility and comfort.

 **Rental Ready** styles are perfect for Industrial Launderers who have rental programs. These styles hold up to large-batch wash/dry/press and high temperature conditions.

REPREVE **Repreve**® fiber contains recycled materials – including plastic bottles. When you see this symbol on the tag, remember: It's what's in it that makes it recycled. With Repreve®, you can be sure you're creating a reprieve for the planet.

 **Soil Release** finish provides for easy care with recommended soil treatment. The release allows stains to be removed more easily during laundering.

 **Snag-Proof** garments resist snags wear after wear. Don't believe it? Try a wire brush!

 **Tuff-Pil® Plus High-Tech Acrylic** fibers used for uniform ready sweater apparel offer low-pil performance, colorfast and durability. The garment is designed to last 30–50 home wash cycles.

 **UV Protected** means more fun, less sun. The dry-mesh fabrics block harmful UV rays with up to a UPF 50 factor.

 **Tuff-Tested®** garments have passed testing in the field to last week after week in any light work environment. To achieve this resilience, the right fabrics, trims and finishes are selected to enhance the life of the garment. These garments are designed to last 50+ wash cycles and to withstand the large-batch wash/dry/press and high temperature conditions of industrial laundry.

 **Waterproof** garments keep you dry with DWR (Durable Water Repellent) finish and a fully seam-sealed interior.

 **Water Resistant** garments are coated with DWR (Durable Water Repellent) finish that lets water bead up and roll off.

 **Wrinkle Resistant** fabric is treated to resist wrinkles and the garment holds its shape with multiple washes.
